Set-up period	May - November 2021	
Project manager	Mr. San Som	
Location	Phnom Thom Tbong Village O Prasat Commune Mongkol Borie District Banteay Meanchey Province Cambodia	

Map

Implementation

We therefore support the school’s project by setting up a computer laboratory with 31 desktop computers. We will additionally provide one printer, one LCD projector and two air conditioning units, as well as appropriate desks. This will ensure the sustainable and high-quality delivery of computer classes, which will be taught to students in grades 10 through 12. The funding also includes ongoing training for the computer teachers. This project will have a long-term impact as basic computer knowledge is indispensable in today’s labour market. Furthermore, it will improve the students’ learning environment and increase their motivation as they see a practical and useful application of their education. The school will be responsible for arranging the purchase and installation of the new equipment, but we will offer support to ensure that the equipment is of high quality and that installation is carried out correctly. The students will contribute USD 0.25 per month to support the upkeep of the facilities, as agreed with the parents. We consider this a low-risk project. The school is located just off a main road, making it easily accessible during all seasons. The set-up and installation is due to begin in May 2021 and it is expected to be completed by November 2021.

Phnom Thom High School is in good condition and offers a welcoming environment

Budget

Item	USD	In %
Initial start-up equipment	22,669	77
Labour Costs	200	1
Education & Training	3,435	12
